### **DETAILED ACTION**

Claims 2-6, 11-13, and 17 have been cancelled. The active claims are 1, 7-10, 14-16 and 18-20 of which claims 1, 7, 9 and 14 are independent claims.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 7-10, 14-16 and 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over House (USP 6,785,805) in view of Cline (USP 7,136,908).

Details of the rejections have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

### **Response**

In the communication filed on 6/27/2008, Applicants argued for patentability solely on the newly inserted limitation that House and Cline did not teach establishing a communication link comprises establishing a VPN link. As set forth in the rejection above, House does teach establishing a communication link. House does not make clear whether he uses VPN to establish the communication link. VPN is well known in communication art. See the abstract of the references cited in 892. Whether or not House uses VPN is immaterial so long a communication link is established. It would have been obvious to a person of ordinary skill in the art to use any type of available communications, including VPN, to establish the communication link.
